

P.U.D.O. - (Pick Up & Drop Off)

What is PUDO?

PUDO (Pick Up Drop Off) is a service that allows customers to pick up their packages at designated self-pickup locations, which aims to improve delivery efficiency in remote areas where traditional door-to-door delivery is challenging.

PUDO Pilot Program Timeline

Start Date: Monday, September 8 (US Time)

Update: February 16, 2026

- Business Hours: Monday-Saturday 8:30am -4:00pm. Sunday: Close
- Contact: 787-787-561-8199
- HC Zip Code: 00754

Key Notes During the Pilot

1. New Tracking Status: if the tracking status shows "Awaiting Pickup by Recipient" indicates that the package is at the PUDO point. The recipient will receive an SMS notification for pickup.
2. A new problem parcel type, "Awaiting Pickup at PUDO Point," has been added to the DMS Workspace. **Under no circumstances should CS reps manually report this issue type.**
3. To prevent "No tracking updates", the "Awaiting Pickup by Recipient" status may be pushed multiple times until the package is picked up or expires. This is not a delivery exception or system error.

PUDO-Related Customer Inquiries

Package Inquiry

- Scenario: Recipient asks for the pickup address or how to pick-up at a PUDO point.
- Action:
 - a. Check the tracking status. If it shows "Awaiting Pickup by Recipient", then it means the package is at the PUDO point.
 - b. Confirm the HC zip code and tracking status to identify the correct PUDO point.
 - c. Provide the recipient with the PUDO point’ s address and business hours.
 - d. Inform the recipient that they should have received an SMS notification for pickup, which can be used as proof of pickup.

Redelivery Request: PUDO point to residential address

- Scenario: The parcel has been delivered to PUDO point, but customer requests to change from PUDO pickup to door delivery.
- Action:
 - a. Create a work order with the following details:
 - Work Order Type: Modify Info
 - Detailed Type: Changing the Shipping Information During the Delivery
 - Customer Complaint: No
 - Remark: "PUDO to Door. Customer requires redelivery to residential address."
 - b. Verify address. If the recipient requests a new address, update the address in the system following the standard address modification process.
 - c. If no new address is requested, simply create the work order as described.
- Important:
 - The product team will regularly export work orders and filter them by remarks to notify PUDO point operators to return and re-deliver packages. Please strictly follow the work order type and remark format.

Customer requests to have the parcel stored at the PUDO point for more than 14 days

- Inform the customer that the parcel will remain at the PUDO point for **14 calendar days** during the first pickup period.
- If the parcel is not collected within those 14 days, it will be returned to the sorting center and then reassigned to the PUDO point for a **second pickup period**.
- If the parcel remains uncollected after the second PUDO cycle, it will be returned directly to the sender.
- There is **no re-delivery process** for PUDO parcels. However, while the parcel is still active in the system, the customer may request **home delivery instead of PUDO pickup**, but this does not qualify as a re-delivery request.
